EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul J. Farrell on 25 July 2005.

The application has been amended as follows:

1) Claims 1-6 are CANCELED.

2. The following is an examiner's statement of reasons for allowance:

The closest references the Examiner was able to locate were:

a) Lazerus US 2,669,176. The reference teaches a pump for vacuum storage of food products. The reference at least fails to teach a downward concaved sliding flute, a second valve flute having opposite portions of which an outer circumference face are formed as rotation prevention faces, and a deviation prevention member with projections.

b) Chang US 6,644,489. The reference teaches a vacuum container, but at least fails to teach a second valve flute having opposite portions of which an outer circumference face are formed as rotation prevention faces, and a deviation prevention member with projections.

No motivation could be found in the Prior Art to modify either of the above references, in order to form a prima facie case of obviousness to reject claim 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Priority

3. Receipt is acknowledged of papers (2003-8412, 02/11/2003) submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Art Unit: 3727

4. Acknowledgment is made of applicant's claim for foreign priority based on application 2003-46424 filed in Korea on 09 July 2003. It is noted, however, that applicant has not filed a certified copy of the Korean application as required by 35 U.S.C. 119(b).

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:
See attached PTO-892 citing relevant references.
